Photography on the day

A group photograph will be taken of each team immediately followed by individual portraits of those requiring them. Payment envelopes should be given to our staff at this time for receipt and production purposes. During this time an adult team leader will be required to enter the names of each team member on a grid representing their position in the group photograph. This can be checked against the image displayed on our laptop computer or image supplied.

For those requiring individual portraits, it is essential that they hand their payment envelope to the photographer at the time of photography. The envelope will be stamped with the frame number as photography is in progress. This helps with identification of the member being photographed.

Post photography

A proof of the final group photographs will be presented to the club for approval before printing the order. Proof reading should be completed ASAP. Production time is two weeks plus the time taken for the club's approval of the group photograph's copy content.
